## **The Network**

The Regional Medical Library Network is a collaborative effort in information access between the West Area Health Education Center (AHEC) and the libraries of Methodist Hospital, Owensboro Medical Health System and Regional Medical Center. The network operates with each library, serving select counties within the West AHEC region. The librarians welcome the opportunity to assist you with your informational needs.

## **Purpose**

The Library Network provides the resources and services necessary to meet patient care, education and research information needs of practicing health professionals and health profession students within the West AHEC region. Students are encouraged to utilize the library resources while on rotation in the area.

## **Interlibrary Loan/DOCLINE**

Books and journal articles not available on site may be requested via interlibrary loan. Library staff will process these requests. Response times may vary.

## **Computer On-Line Searches**

Computers are available for internet access/ on-line searches, checking email, etc. Staff assistance is available.

## **Photocopies**

Photocopies of book excerpts or journal articles can be provided. (Copyright compliance is observed.)
